I think we can do it pretty efficiently. If not, we'll just have to schedule a meeting for next week. Tim, can you present some of your findings? MR. SANDS: Yes. Good afternoon. Kind of as I stated in the recommendations, I feel like me and the staff are still shooting a little bit blind on exactly where we need to go with this. And I think we're going to need guidance from this committee and then the Board of Trustees. Kind of in the beginning of the packet of the recommendation, we're seeing what we did in the 2022 season fiscal '21/'22, and then fiscal '23/'24. There wasn't a big spike in revenue. With	1fees.2As we go down further, me and the staff3kind of came up with what we felt was a happy medium4between recommendations from Advisory and then also5how we crunched the numbers from the '22 season to6the '23 season with price increases.7Obviously, Rob did a great job with8compiling some firm numbers that we had in a9previous spreadsheet. And even to an earlier10caller's point, we're trying to find that balance,11but it is a very difficult balance to find because12we don't have pure financials available.13CHAIR TONKING: Thank you. Do you want to14talk a little bit about the differences you've15talked about it in your memo that occurred16between the Golf Advisory Committee's17recommendations and staff recommendations so we can18kind of hone in on the same area, and the committee19can decide if they want to change any of the20mc. And, frankly, I believe the staff who is devoted and it is their full-time job to run a good course, is going to know better than we will. I am in complete support of everything listed there. I understand the points made on the price point. Maybe there's some tweaking there that we may want to discuss, but I'm a hundred percent in support of that. I do have one question which may be something we want to include as part of the presentation to the Board of Trustees and that's around the last bullet which mentions the use of the spreadsheet, which, again, thank you to Rob for putting that together, really helpful, and will continue to be so. At the end of that in brackets	19	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	track and monitor that, I'd love to highlight that as part of this overall price that we land on because they go together. MR. SANDS: I'll jump in there real quick, and I appreciate that comment. How I kind of simplify it in my training and what I look at, it's similar to The Bell Curve on the grading system of schooling, The Bell Curve obviously goes up and down on both sides of the spectrum. We're going to have folks that get A pluses, we're going to have folks that get D minuses. We're going to look at that complete scale and try to find that happy medium. That will then allow us to find the correct price point that caters to, not only the majority of the residents that use the facilities, but then how do we price our non-residents off of that. MEMBER SIMON: Do you think it would be necessary to put a cap on the unlimited? If you really were worried about those people that are severely abusing the system and if other people are,	20

It would have to be done by hand, and we would have to have a folder that: Mr. Smith made ten tee times, that's all he gets for the remainder of the season. Vermont can't do that. We would have to do it physically on paper. CHAIR TONKING: I think, then, my next question is does anybody have a motion on that section of changing how we're viewing those prices? MEMBER SIMON: Which section? CHAIR TONKING: Both the All You Can Play and the couple's and with the caveat of what you had brought up restricting some times for non-residents. MEMBER SIMON: We have to take this sort of global concept and put it on paper because there's a lot more types of passes and pricing, we need to have a complete grid of all the prices so that we can do a projection of our revenue with the prices, times, the projected rounds. If we don't go to the trustees with that at a minimum, I think you're going to have a problem.

We should be looking at that. The idea is is sure, you don't have any authority, but before you would want to have any authority anyhow, you gotta know what we're talking about. You do have the authority to go and study, and study takes a lot of time and a lot of energy, but then you don't have to shoot from the hip anymore. That's all I have to say. What I find also very interesting is that the financial statements, according to Magee, for this last year were done. Okay? So why has that not been delivered to you for the golf courses? Why are you only getting a half a year for the current fiscal year when the previous fiscal year has been done, I assume, for at least two to weeks?	43	 like Rob, but I'm talking the financial people.
