	3		3 MR. CHURCH: Good evening. I am Jeff	
	4		4 Church, also known as Watchdog Jeff Church, and my	
	5 CHAIR SCHMITZ: Good evening. It's six		5 website is watchdogjeff.com.	
	6 o'clock here in Incline Village. It is a regular		6 I'm also a trustee for the Washoe County	
	7 meeting of the Incline Village General Improvement		7 School District, District A, so I am your trustee.	
	8 District Board of Trustees on April the 10th at the		8 I've met many of you before. I do have to do this	
	9 Boardroom here on Southwood Boulevard.		9 disclaimer: Views are mine, and I am a candidate	
	10 We'll begin the meeting with the Pledge of		10 for reelection, so I wanted to introduce myself to	
	11 Allegiance.		11 those that don't know me.	
	12 A. PLEDGE OF ALLEGIANCE		12 I am a terrible politician. I tell the	
	13 (Pledge of Allegiance.)		13 truth, I state my views, I don't mess around on	
	14 CHAIR SCHMITZ: Moving on to the roll call		14 that, I just have no filter, and that's one reason	
	15 of trustees.		15 I'm here to talk about the TTD and the mobility hub.	
	16 B. ROLL CALL OF TRUSTEES		16 I voted no. I was totally opposed to it. Now I'm	
	17 CHAIR SCHMITZ: Trustee Tulloch?			
	18 TRUSTEE TULLOCH: Present.		17 hearing rumors that they might not use it.18 We sold it to them way under market value,	
	19 CHAIR SCHMITZ: Trustee Noble?		19 and if they don't use it, the point is I want it	
	20 TRUSTEE NOBLE: Here.		20 back. I want to use for our staff housing, I don't	
	21 CHAIR SCHMITZ: And I believe Trustee Dent			
			21 want it be condos for somebody, I want it for our	
	22 is not joining us this evening, but Trustee Tonking		22 people for staff housing, and then maybe potentially

	going to use it for public purposes, and now maybethev're not.	7	Stephanie Flores, wonderful lady, I'd call her a moderate. I'm clearly conservative. I make no bones	8
	2 they're not.	7	2 moderate. I'm clearly conservative, I make no bones	8
	2 they're not.3 I'm also opposed to the closing of the	7	2 moderate. I'm clearly conservative, I make no bones3 about that. And then Ms. Hull, for lack of a better	8
	 2 they're not. 3 I'm also opposed to the closing of the 4 Incline Village Middle School. I have eleven 	7	 2 moderate. I'm clearly conservative, I make no bones 3 about that. And then Ms. Hull, for lack of a better 4 term, progressive, a hand-picked progressive one. 	8
	 2 they're not. 3 I'm also opposed to the closing of the 4 Incline Village Middle School. I have eleven 5 different reasons I could state why I'm opposed to 	7	 2 moderate. I'm clearly conservative, I make no bones 3 about that. And then Ms. Hull, for lack of a better 4 term, progressive, a hand-picked progressive one. 5 So you have candidates, they're all good, depending 	8
	 they're not. I'm also opposed to the closing of the Incline Village Middle School. I have eleven different reasons I could state why I'm opposed to closing the middle school, but it's really a 	7	 2 moderate. I'm clearly conservative, I make no bones 3 about that. And then Ms. Hull, for lack of a better 4 term, progressive, a hand-picked progressive one. 5 So you have candidates, they're all good, depending 6 on your point of view. I think I'm the best. I 	8
	 they're not. I'm also opposed to the closing of the Incline Village Middle School. I have eleven different reasons I could state why I'm opposed to closing the middle school, but it's really a nonstarter for me. 	7	 2 moderate. I'm clearly conservative, I make no bones 3 about that. And then Ms. Hull, for lack of a better 4 term, progressive, a hand-picked progressive one. 5 So you have candidates, they're all good, depending 6 on your point of view. I think I'm the best. I 7 stand on my record. I'm a retired military officer, 	8
	 they're not. I'm also opposed to the closing of the Incline Village Middle School. I have eleven different reasons I could state why I'm opposed to closing the middle school, but it's really a nonstarter for me. Couple of things I just kind of want to 	7	 2 moderate. I'm clearly conservative, I make no bones 3 about that. MOLINELLI: Good evening. My name is 16 Joe Molinelli. 17 My comments will be in reference to Mr. 18 Katz' comments about Tim Kelly during the March 6th 19 special meeting. For the record, no one has asked 20 me to be here, no one has asked me to defend 21 Mr. Kelly, but after the comments I wanted to speak 22 up, not only a friend, but a good person's 23 reputation is wrongly trashed.	8
	l'm also opposed to the closing of the lncline Village Middle School. I have eleven different reasons I could state why I'm opposed to closing the middle school, but it's really a nonstarter for me. Couple of things I just kind of want to educate you for in the little time I have left. There's actually two bites of the apple you're going to get in voting for school trustees. You have District A, which is what I am, there's three candidates, they're all educated people, I just ask you to look. And then there's about seven for candidates for the at-large G. The reason I bring that up, I'd love to have somebody do a forum, let's put us on the hot seat, ask us tough questions. How do we believe what about the closing of middle school? If there's any group that could possibly hold a non-partisan candidate forum, early voting starts in mid-May, so let's get 'er done, get us up here and put us on the hot seat and ask us the tough questions. I will say I have a little bit of time	7	2 moderate. I'm clearly conservative, I make no bones 3 about that. And then Ms. Hull, for lack of a better 4 term, progressive, a hand-picked progressive one. 5 So you have candidates, they're all good, depending 6 on your point of view. I think I'm the best. I moved here with my family three years ago with two young boys. Tim and his family were some of the first people we met. He's just been absolutely everywhere, running clinics, summer camps, rec league. I'm a coach and got to know him a little bit on some of the rec leagues. And, yeah, he's had a huge impact on my family, and has been an awesome role model for my boys. We just see him absolutely everywhere, just constantly pouring energy and passion into everything he does. I think he's just, yeah, been incredibly important for the community. Like I said, I have no idea where those comments were coming from, but I was very, very surprised, as I'm sure many people were, and I just	MR. GROSS: Good evening. My name is Michael Gross, and I've been a resident here in Incline Village for almost 10 years now. On a positive note, I'm here to inform the Board of a donor-funded memorial plaza proposal that was submitted to our IVGID General Manager Bobby Magee last month. The offering comprises about 360 square feet of cobblestone plaza, which is about the size of a small backyard patio, a large granite monument with inscriptions, two granite benches, and three flagpoles. The best identified location is a two-and-a-half-foot-high plateau above the northern end of the Village Green. It's along Incline Way and across the street from the Recreational Center. The location is currently occupied by two park benches, which could be easily moved to either side, and this location is perfect with a list of attributes that is far too long to list in this small amount of time. Prior to proposal submittal, a small team reached out to various Incline Village organizations and leadership to assess community interest in the	
I just wanted to comment, basically touching the same topic Joe was speaking on. I don't have any agenda, I don't have any awareness of where those comments about Tim Kelly were coming from. I was made aware of them, like many other people, these last few weeks, and I just wanted to vouch for Tim as a person and as an employee of the Rec Center and the people in this community. I will note in my almost two years of dealing with our audit firm, occasionally they can get a little laxed with their nomenclature. If some of the confusion's coming from them, I think I can help that as well. I would conclude to say that I don't think calling these financial things "audited" isn't going to end well. Perpetuating a categorically incorrect narrative, the financial statements audited, will come to an end at some point. I'll just add, the ACFR is not on the website yet. I don't know why it's not since it was accepted over a week ago. If you go to the financial transparency page, which is where you would find that, it says: If you have questions, call Paul Navazio. I'm not going to do that. Lastly, I'll just say I'm not the only one that's kind of got this issue in their craw, and there are two other groups that I know of that are looking at both regulatory and legal recourse to set the record	16

Rather than punish you with a recitation of the auditing literature, I'll just tell you what dictionary.com says about a disclaimer: You are renouncing, repudiating, denying, and disavowing. Our auditor said they couldn't finish the audit, there were too many open items, and that was it. So, we do not have audited financial statements. This is not a matter of nomenclature or semantics; I just don't understand how there can be any confusion on this. And the press release from April 3rd certainly compounds this misleading assertion. Moreover, I listened to the GLGF meeting last week, and what they accepted was our ACFR with financials in it, which there's a disclaimer of opinion. Mr. Magee was asked what kind of report the auditors had given the District, and he appropriately responded, "A disclaimer of opinion." I'm just at a complete loss as why we still keep calling these "audited," and it has a lot of important ramifications.	15	with the literature. And if you look and see that we've even submitted bank statements that were audited for the short time that he's been here, he has performed miracles in this accounting department. And I think we really need to be thankful because that is one of the things that everyone was concerned about: the books, the books, the accounting, the accounting. Well, he has done a remarkable job in the short time that he's been here. And when you look at what people are saying about them, I challenge, even some of those candidates who are CPAs for Fortune 500 companies, to think that they could have accomplished any more than he has accomplished, especially with a computer software program that was probably defunct by the time we even started to implement it. And so I just want say thank you to Mr. Magee for stepping in, realizing that, and then	20
the IVGID trustees carry out the responsibilities. All other nonconstructive critics simply pull the community down while making the job of our publicly elected officials tedious if not impossible. Please, in the future, for the good of our community, offer constructive commentary. Thank you. MS. MARTINI: Margaret Martini, Incline Village. I have heard around town a lot that our general manager doesn't even live here. Two, the Picture Pass and Play Passes,	23	2 for by Play Pass Holders has risen from \$50 in 2020 3 to \$80 in 2023. That's a \$30 increase or 60 percent 4 increase. I think we are at the point on the Laffer 5 curve where an increase in rates going forward will 6 result in a reduction in revenues. And if there's a 7 cost or expenses problem at the golf courses, I 8 think we need to address it, but don't raise rates 9 further. 10 Finally, last year the IVGID Board of 11 Trustees adopted a policy for free reservations for 12 residents during the entire season, I think that was 13 popular, and still tee times were easily available 14 for residents to obtain. I would recommend 15 strongly, though, that if that policy is continued 16 that the Board put in a no resale or transfer for 17 value restriction on those passes. Otherwise, we 18 could end up with a problem with people getting free 19 tee times and reselling them. 20 Thanks for your time. 21 MR. WRIGHT: Frank Wright, Crystal Bay. 22 I'm a candidate for the board, along with 23 five other people. This is a clear-cut election.	24

BRIGGS: Good evening. This is Michael Briggs. I live at 582 Douglas Court in Incline Village. I wanted to make a few comments about the golf rates that are on tonight's agenda based upon the report from last year's golf season that was submitted to the Golf Advisory Committee by Darren Howard. First, 2023 was the first time in recent years that residents who paid the daily rate played more rounds than residents with Play Passes, and I think that was probably intended by the Board policy. CHAIR SCHMITZ: The one thing I just wanted to mention to my fellow board members is that in discussing with the General Manager, the public records request that gets published in his monthly report, we're actually going to bring an agenda item just to clarify what the Board wants to see because this list is only going to get longer with every month. So, we will be bringing that back as an item for brief direction of what needs to be included in the board packet. Seeing no more questions on the General Manager report, we'll move on to item E 2. E 2. Utility Infrastructure Master Plans for Water and Sewer CHAIR SCHMITZ: I will hand this over to the interim Director of Public Works Ms. Nelson and her team. MS. NELSON: As you're aware, in October of 2022 the Board of Trustees approved the water and sewer master plan project. The original scope included the SKATA master plan as well, but due to budgetary issues, that was re-budgeted as a separate project. Public works staff is currently preparing the statement of qualifications to be advertised in the near future for that project.	1 The master plan's purpose is to document 2 system trends and capacity, infrastructure condition 3 and performance, and provide a plan for the near and 4 long-term capital improvement replacement needs. 5 DOWL Engineering worked closely with the Public 6 Works staff to gain knowledge of both systems and 7 provide their independent review of the overall 8 systems. 9 I'd like to introduce Luke Tipton with 10 DOWL Engineering. He is their water and wastewater 11 leader, and he's going to provide a short 12 presentation to the Board. And then we're here to 13 answer questions. 14 MR. TIPTON: Very pleased to present 15 DOWL's evaluations of the water and sewer utilities 16 as a result of the completion of the utility master 17 plans. 18 Tonight we're going to go through the 19 master planning process and some of the key goals, 20 as well as explaining how we grade the system, and 21 then looking at the specific results for the water 22 and sewer systems. I will note, I'm going to try 23 and streamline this as much as possible. I know 24 we're trying to save some time here, so I will kind 25 of breeze through a few of these slides here.	34

One of the things I sat in on the meeting this past week, it was very informative, a one of things on the design that I've thought about that I think we should potentially also reconsider is in the design, it included four outdoor showers, full showers, and that I think that we would be better served by having foot showers as opposed full-on showers. I think that would be a prudent decision. The other thing, Trustee Dent had ask to share some things. He had asked me to share doesn't think we should have showers, he said yo	1 might be worthwhile to take a look at how they have 2 it, and if we had the ability to lift things, that 3 potentially could be a huge cost savings. a recommendation coming from staff. It's the first 1 2 I've heard of it. 3 CHAIR SCHMITZ: I thought that staff had 4 shared a draft with all of us for input. Am I 5 mistaken? 6 MR. MAGEE: No, you are not mistaken. We did send out the policy to the full Board, and we asked if there was any thoughts or comments back to 9 staff that we would be happy to consider individual 10 thoughts before putting together what will 11 ultimately be the final staff recommendation on 12 this. 13 Staff has continued to work on putting 14 this together, and I think that moving it back to 15 the May 8th meeting would be appropriate given where 16 it's at at this time, though. 17 CHAIR SCHMITZ: I think the confusion is 18 is it going to the CIC or is this coming from staff? 19 That's what I'm trying to get clarified with Trustee 20 Tulloch. 21 TRUSTEE TULLOCH: Forgive me. Yeah, if

22 this went out, I've missed it somewhere. Perhaps it 23 could be re-sent or advise me when it was re-sent,

CHAIR SCHMITZ: And were you -- Trustee

24 General Manager Magee.

Tulloch, were you wanting the CIC to weigh in on this? It was a draft that finance took a leadership 3 role on 4 TRUSTEE TULLOCH: Yeah, I can't say at this moment because without reviewing the draft, it's hard to say. I've obviously missed the draft somewhere, so if somebody can advise me what date it 8 was sent. 9 CHAIR SCHMITZ: It was some time ago. 10 I'll ask General Manager Magee if he could please 11 have staff resend it to -- do you need to resend it to potentially all of the Trustees? Did you get any feedback from any Trustees? 14 MR. MAGEE: I have received feedback from a couple of Trustees, yes, already. CHAIR SCHMITZ: Okay. All right. Thank 16 17 you. 18 MR. MAGEE: But we're happy to resend it 19 to Trustee Tulloch. 20 CHAIR SCHMITZ: Then my question is on the 21 24th, the golf club recommendations, I want to be 22 clear, this is not recommendations from the golf 23 club. This is trying to make more transparent the 24 agreement between golf clubs and the District.

And that is something -- is legal counsel

Justification

Background – A large percentage of America's towns and cities have some form of a War Memorial. They are typically located within a town square or a village green, while some are near government office buildings. Each bring a greater sense of community and a shared remembrance of those who sacrificed their lives for our country. War Memorial's typically become a community gathering point during National Holidays (Memorial Day, July 4th, Veterans Day), Flag Retirement Ceremonies, Parades, and other Public Service events.

Relevance – There is no Memorial site in Incline Village. The 2023 Memorial Day service was held at Burnt Cedar Beach. The 2023 Flag Retirement Ceremony was held at the Village Green. The consideration of Incline Village resident's health & welfare is clearly within the Board commitments made within the *IVGID Values, Mission, Goals, and Strategic Plan*.

Benefit to the District – Incline Village is decentralized, there is no town center. The Monument will bring a greater focus to the Village Green. It will become a community gathering point during National Holidays (Memorial Day, July 4th, Veterans Day), local parades, and other Public Service events. The Monument will be an easily recognizable Incline Village landmark and a focal-point of community pride.

Funding – Funding will be provided to the Parks and Recreation Vision

Foundation (Incline-Tahoe Foundation), through the Parasol Tahoe

Community Foundation. The Incline-Tahoe Foundation will be fully compliant with
existing IVGID practices and procedures, as detailed in the Parasol Tahoe

Community Foundation Grant Agreement. All required funding will be through

Community Donation. The Estimated total cost fabrication and installation is
approximately \$112K. Initial budgetary estimates from two monument fabricators and
local IV contractors are as follows:

Monument - \$65K Flagpoles (3) - \$6K Plaza (granite cobblestone) -\$22K Electrical - \$9K Reserve - \$10K IVGID Values, Mission, Goals, and Strategic Plan – This proposed Monument fully satisfies IVGID's Vision, "With passion for quality of life and our environment, Incline Village General Improvement District will enhance the reputation of our community as an exceptional place to live, work, invest, and play". It helps to provide a greater sense of "village" in Incline Village.

District Design Practices – The Prosed Project will comply with all relevant elements of the, *Incline Village Construction Guidelines By the Board of Trustees, October 24,* 2015.

Special Maintenance – The Monument and cobblestone plaza are fabricated with grey granite, a very durable material, which is relatively insensitive to all outdoor environments/conditions. No maintenance is expected.

The granite cobblestone will be installed flush with the ground so that the existing IVGID Maintenance's grass cutting/trimming responsibilities at the Village Green Site will be unencumbered.

The 3 flag poles are made of commercial grade aluminum, which is corrosive resistant. Furthermore, the Flag-pole's Halyard, will be tamper resistant (wire center rope) and anti-theft locked. Periodic replacement of weathered/frayed flags will be required.

Replacement Cost – The proposed War memorial is a very large, immovable (approximately 12,000 lbs.) granite monument, situated within a granite cobblestone plaza. It is expected that this Monument will remain intact in its place for many years. No replacement cost is anticipated.

Description

Location – We are proposing to place the War Memorial on Incline Village General Improvement District (IVGID) land. The best identified site location is at the northern end of the Village Green, along Incline Way and across the street from the Recreation Center. See Figure A for photographs of the proposed area. This proposed location best meets all of the recommended criteria:

Access – Site is readily accessible by non-IV residents, with stairs/walkway for color guard & handicap access. This is a non-deed restricted area. There are two 5 foot wide (2.5 foot high) stairways at each side of the retaining wall and gravel walkways at the tree-line borders running along the length of the Village Green, up to the Incline Way road. The ground from the street is a gentle grassy slope, with easy roadside access to the site.

Visibility – The Monument's proposed location is approximately 30 feet off the south side of Incline Way. It is large (10 feet high) and can be readily seen from the Road. The proposed location is also along the July 4th holiday parade route and could easily be a destination point along the procession.

Parking – Sufficient and closely located Parking Area. There are two closely located, existing parking at the Tennis/Recreation Center and Aspen Grove parking lots (located at each end of the Village Green).

Public Address – Raised platform above viewing audience. The raised elevation (2.5 feet height) of the retaining wall provides an excellent location to hold a memorial ceremony, a color guard, or speakers with excellent viewing from an audience.

Utilities – Electrical Service nearby. There is an existing IVGID Parks and Recreation electrical subpanel (with meter) approximately 50 feet away. It could be assessed to provide electrical power for public address equipment, lighting, etc.

Layout – The proposed layout exploits the existing topology of the Village Green site. There is an existing 2.5 foot stone retaining Wall, with a flat plateau area and a gently sloping rise to the street level. The total area is approximately 150 feet wide by 44 feet deep. As shown in Figures B & C, the proposed plaza is centered between the two stairways and covers a 36 foot wide by 12 foot depth. Since the area is flat, no additional grading of the area is required, beyond placing base material (sand) below the installed cobblestone.

There is an existing IVGID Parks and Recreation electrical subpanel (with meter) approximately 50 feet away. Electrical extension cords could be used to provide power to the site. Or a new line can be easily added to the breaker box, with trenching and outdoor electrical pipe/wire laid to a weather-proof receptacle and lighting at the Monument Plaza.

The raised elevation of the retaining wall also make the plaza an excellent location to host a memorial ceremony, a color guard, or speakers with excellent viewing from an audience 2.5 feet below the memorial "stage".

Monument Design – The baseline monument design (shown in Figure D) is being evaluated, with proposed recommendations and/or changes coming from our veteran's community. As shown, it is approximately 6 feet wide, 10 feet tall and 1.5 feet thick. It will be fabricated from Grey Granite. It will be a two piece design; a base pedestal and a vertical monument. The vertical monument will be polished with inscriptions on either one or both sides (TBD). The monument will sit on a concrete base, with steel pins to ensure stability. The baseline inscription is from a President Harry S Truman quote, spoken at a Memorial ceremony, and inscribed at the National World War II Memorial.

Flag Pole Layout – There will be three (3) flag poles located at the memorial site. The flag poles will host American and Nevada States flags, along with the option for other flags (i.e., POW/MIA). The flags will be continuously lit (either by mast-head solar panels or by powered ground lights). As shown in Figure B, the three flagpoles are orientated in a triangular geometry, centered behind the Monument. The poles will be

approximately 25 ft high, with the center US flag pole, approximately 2 feet taller. They will be set in concrete pillars.

Plaza – The plaza surface will be constructed form 4x4x6 inch grey Granite cobblestones (See Figure E). The stones will be laid upon a sand base and the finished surface will be level with the ground. There will be 1 inch gaps between the cobblestones to allow for vegetation growth, to improve water runoff / percolation to the ground below, and minimize any coverage requirements. A concrete base will be laid to provide vertical and lateral support the granite structure.

Specification – The Primary Design Specification is shown below in Figure F. It will be updated, as necessary to reflect design changes, and will be included as part of the Parasol Grant Agreement.

Names – The proposed War Memorial is to be a recognition of our fallen soldiers throughout American History. Beyond a simple inscription commemorating those who have sacrificed their lives across our many unfortunate wars, there will be no individuals named, nor families to be notified and approvals granted.
