RE: IVGID Beach Access Study

Dear Mr. Klein:

Per your request, LSC Transportation Consultants, Inc. is pleased to present our proposal to conduct a study regarding the access conditions at Ski Beach, Burnt Cedar Beach and Incline Beach that are managed by IVGID. The overall purpose of this work will be to evaluate current traffic congestion and pedestrian/bicycle safety concerns at the three beaches, assess future changes in conditions, and develop recommended physical improvements and management strategies to improve overall congestion and safety conditions. Our extensive experience in transportation analyses for Tahoe recreational facilities, such as for the East Shore Trail, California State Parks and the US Forest Service, will provide us with the understanding of user needs directly applicable to this work.

We propose to conduct our work in the following tasks.

Task 1: Review of Existing Conditions and Future Growth

We will initiate the study with a meeting with IVGID staff to review existing issues and available data. As part of this meeting we will review existing study issues, beach management procedures and potentially available data, such as the following:

- Daily and hourly user count data
- Any existing parking, pedestrian counts or user surveys
- Any resident surveys

We will also discuss factors that may impact user levels, such as residential development forecasts, changes in visitor use patterns (such as short term rentals) or planned changes in operations.

Task 2: Data Collection

LSC proposes to conduct the following data collection efforts.

Traffic and Pedestrian/Bicycle Counts/Observations

On one busy summer day at each of the three access intersections, LSC will conduct 3-hour counts (summarized in 15-minute periods) of traffic turning movements, bicycle activity and pedestrian crossing activity. LSC will also collect 1 hour of data regarding the time required to process inbound drivers, as well as the length of the auto queue (on minute frequencies).

At the same time, an LSC Engineer will observe traffic/pedestrian conditions, identifying sources of traffic congestion and pedestrian delays. We will also place a radar traffic counter at two locations on Lake Shore Drive over a busy summer weekend and summarize the counts.

User Surveys

LSC staff will conduct surveys of beach users (including boaters, picnickers, etc.) with the goal of obtaining surveys representing at least 100 users at each of the three locations. A short survey will be conducted to gather data on the following:

- Travel group size
- Resident status
- Travel mode to the beach
- Parking location
- Frequency of beach visitation
- Perception of access conditions
- Suggestion for improvements

We will then summarize the survey results, cross-tabulated by location.

Public Surveys

LSC will also conduct a broader public survey of IVGID residents with regards to beach access. We will develop an online survey (for review by IVGID staff). This survey will then be distributed through available email lists and/or IVGID mailers. While the final list of survey questions will be developed as part of the study, useful data includes the following:

- Resident status
- Pattern of use (number of visits to each beach per summer, etc.)
- Travel mode
- Perception of access/traffic conditions

- Interest in potential auto alternatives, such as microtransit service
- Suggestions for improvements

We will summarize the resulting data.

Task 3: Engineering Analysis

Using the collected data and standard transportation engineering methodologies, LSC will evaluate potential improvements and strategies. These may include the following:

- Intersection modifications
- Modifications to entrance kiosk locations and configuration
- Changes in pedestrian crossing locations, signage and control
- Changes in entrance management procedures, including potential new technologies to speed access
- Real-time monitoring of parking conditions
- Information technologies, such as a beach user app or variable signage

Advantages and disadvantages of alternatives will be discussed. Planning level cost estimates will also be conducted. Note that these will be based upon a visual survey of the site and standard unit costs and project development factors and will not include detailed evaluation of utility locations.

Task 4: Report Preparation and Review

LSC will first prepare an Administrative Draft Report that includes all the collected data and analysis, as well as our recommendations. We will then meet with IVGID staff and address any staff comments to prepare a Public Draft Report.

We will then attend up to two public and/or Board meetings to present and discuss our recommendations. Working with IVGID staff, we will then prepare a Final Report reflecting any public and Board comments.

Study Cost and Schedule

As indicated in the attached table, we estimate that this analysis will require \$43,480 in professional fees and other expenses to successfully complete. We would propose to conduct this work on a time-and-materials basis with a contract maximum of \$43,480 that would not be exceeded without your prior approval. We would be happy to discuss specific elements of the proposed work scope to refine the scope and cost.

We believe that valid data regarding peak beach conditions cannot be conducted prior to July. The collection and analysis of data will be completed by August. An administrative draft report can be

completed by the end of September. While the presentation and review process will be determined by others, LSC will complete the study in a timely manner.

A A

We would be happy to discuss any changes to the scope or contractual arrangements that you feel would be appropriate. Thank you for the opportunity to make this proposal. We look forward to your reply.

Respectfully Submitted,

LSC Transportation Consultants, Inc.

Hudson -- I have a vacation trip already scheduled for the last week of this month, and simply do not have the time (even including overtime) to pull everything together prior to that. My apologies for poor planning on my part, but I can only commit to October 15th.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please provide for my examination any written form of backup from any source (other then Mr. Underwood) that would support his claims made in his January 11, 2023 memorandum (page 152 of Board packet) regarding Section 595 programs. Attached is his claims from the Board Packet. What I seek is enclosed in the red rectangle.

Cliff Dobler

As you know, we were told by the US Army Corps of Engineers (USACE) that the 595 program had reached its authorized spending limit and could not support a higher cost project like the Effluent Pipeline. We worked with both Senators and Cong. Lee, Amodei, and Titus to increase the 595 spending limit as part of the Water Resources Development Act efforts this past year. We also reached out to other states to garner support for the program increase and this proved successful. The 2023 National Defense bill, which included the Water Resources Development Act of 2022, was signed into law on 12/23/22 (Public Law 117-263). The WRDA bill increases the 595 program's spending cap to \$800 million. That reference can be found under Division H--Title LXXXI Water Resources Development Act of 2022. See Section 8376 Additional Assistance for Critical Projects subsection H (13) (A) below. The authorized spending level noted in (A) authorizes the USACE to spend an additional \$365 million for the 595 program for projects in Nevada, New Mexico, Montana, Idaho, Wyoming, and Utah, which is subject to Congressional Appropriations each year. The \$200 million cap is for projects in Arizona. I included the reference below:

```
(13) Western rural water.--Section 595 of the Water Resources
Development Act of 1999 (113 Stat. 383; 117 Stat. 139; 117 Stat.
142; 117 Stat. 1836; 118 Stat. 440; 121 Stat. 1219; 123 Stat. 2851;
128 Stat. 1316; 130 Stat. 1681; 134 Stat. 2719) is amended--
(A) in subsection (i)(1), by striking ``$435,000,000'' and inserting ``$800,000,000''; and
(B) in subsection (i)(2), by striking ``$150,000,000'' and inserting ``$200,000,000''.
```

Now that Congress has acted and has the spending authorization in place to support the project cost of the IVGID Effluent Pipeline, our plan is to seek appropriated funding for the program for Nevada as part of the FY24 appropriations process to the benefit of IVGID's Effluent Export Pipeline. That process will start in February.

In addition, we worked with IVGID and the Nevada Congressional Delegation to secure direct

funding for the pipeline in the immediate through another source of federal funds called community project funding. In December, Congress passed the Fiscal Year 2023 Consolidated Appropriations Act, which provides \$1.6 million for the Effluent Export Pipeline through the Environmental Protection Agency as supported by Senator Cortez Masto and Senator Rosen. Documentation of that mark can be found at the end of the Explanatory Statement after page 78 noted under: EPA STAG — Clean Water State Revolving Loan Fund - Incline Village General Improvement District for Effluent Export Pipeline--\$1.6 million. This funding is available for the project now.

Please let me know if you have any questions or if the links don't work.

Susan,

Yes there is funding in this bill for Sec. 595...and by copy of this email I will ask Olivia to send to you a copy of our end of year email that was sent to Indra and Brad. There are several other important provisions that became law at the end of the session that will directly benefit the effluent pipeline project...

After a visit with your team last week, it was suggested that we might want to come out and report to the Board. If it works for Indra, I would suggest the February 22nd Board meeting. Thoughts?

Finally I am copying my new Executive Assistant, Katherine Bennett. She is working closely with

Camille to assume her responsibilities.

Many thanks,

Mellissa - Without me being concerned about you being boxed into this position, the 2022 report has been done. It must be in order to complete the year end financials.

I got the same run around last year with 2021(before I lost it in my files but recently found it). Ray you may remember this. The story was that the person who prepared it was out for several months.

Ray, Matt and Sara - Dollars to donuts, we may find that previous capitalized costs have been netted against current year expenses rather than treated as a prior period adjustment.

Again please provide for my examination the FY 2022 Construction in Progress Report.

Ray, Matt and Sara - See what you can do about this. Navazio what about this?

Cliff Dobler

2022

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I may have asked for these before. Do not quite remember.

Please provide for my examination the final Construction in Progress Reports for the fiscal year ending June 30, 2021 and June 30,2022

I have attached the June 30, 2020 report to guide you.

If I recall I asked Trustee Tulloch to chase this down but never got anything

I did get the 2021 report but cannot locate it.

Please ignore the red highlighting on the 2020 report. This is my work

Hi Mr. Katz.

Thank you for your patience. Here is what I have been able to gather so far:

Due to storage constraints during winter, Staff is just ordering now. I have attached the quote **without shipping**.

Also attached is correspondence between Staff and Emily Jean of Prestwick Golf Group regarding the purchase of furniture for Burnt Cedar Pool.

Regarding the re-allocation of funding, the Board approved reallocation of funding from the Burnt Cedar Pool capital project to cover costs of new furnishings. This action was approved by the Board on June 29th.

The funding to cover the cost of the furniture is included in the amount requested to be carried-over to the current fiscal. A total of \$350,000 in carry-over funding was approved by the Board on August 31st.

Due to the delay in the procurement of the furnishings, the funding has yet to be allocated for this purpose. Prior to issuing a formal purchase order, funds will be re-allocated (up to the amount authorized).

As far as the old furniture, it is currently being stored under the mezzanine on the Burnt Cedar Pool deck.

I am still working on gathering information from Ski on your other inquiries.

Thank you,

Melissa Robertson

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hi Melissa -

As the new public records officer, I would like to examine the following public records:

- 1. Some months ago engineer Kate Nelson authored a memo to the Board in which she stated there was unspent budgeted monies for the Burnt Cedar Pool she wanted to spend on new pool furniture. The request was granted, so I assume the furniture was purchased.
- 2. I would like to examine invoicing from the mfg/seller of that furniture and IVGID which identifies what was purchased, and at what cost.
- 3. I would also like to examine all writings between anyone at IVGID and anyone at that mfg/seller, including e-mails, in any way exploring/inquiring about/consummating the purchase
- 4. I would also like to examine all writings evidencing the cost to IVGID of unreimbursed engineering staff time associated with drafting the above memo to the board, appearing before the board to promote this action, communicating with the mfg/seller of that furniture, or otherwise, related to the acquisition of this furniture
- 5. I would like to examines all billings to the Beach Fund for that time.evidenced in paragraph 4 above, as well as actual payment/transfer to internal services
- 6. I would also like to examine all writings evidencing what happened with the old Burnt Cedar pool furniture. Was it sold? Given away? Taken to the dump?

I now want to transition to the tables and chairs for food court, upstairs bar and possibly Snowflake Lodge at Diamond Peak.

- 1. I would like to examine invoicing from the mfg/seller of that furniture and IVGID which identifies what was purchased, and at what cost.
- 2. I would also like to examine all writings between anyone at IVGID and anyone at

that mfg/seller, including e-mails, in any way exploring/inquiring about/consummating that purchase

THE ORDER PROCESS

1 DISCOVERY

We'll learn about your project needs, as well as your organization's overall goals.

2 RECEIVE QUOTE & CONCEPTUAL RENDERINGS

We'll provide quotes, and when necessary, conceptual renderings. Depending on the size of the project, renderings may take up to a week to complete.

3 QUOTE APPROVAL

You approve the quote.

4 FINAL ARTWORK APPROVAL

All custom configured products require a detailed proof approval before the order is released into production. In addition, you may receive engineering drawings for modified or custom products. The detailed proof/engineering drawings must be approved via our online proofing software, ProofHQ.

5 ORDER CONFIRMATION & PAYMENT

After the quote has been approved, you'll receive an order confirmation that includes product details, shipping and billing information, and any special delivery instructions. Then you'll make your required payment. Orders over \$20,000 require 2/3 down payment. First time orders require payment in full.

6 PRODUCTION BEGINS

Your order is scheduled with an estimated ship date (usually 4-6 weeks following the artwork approvals, depending on workload). If necessary, the deposit is due before production. During the production process, you can contact us at any time for order status updates.

7 SHIPPED WITH TRACKING INFO

After the items are complete and ready to be shipped, you will receive tracking information for the delivery. All items are shipped from our headquarters in Sussex, WI. Transit time is approximately 2-4 days, depending on location.

Please read through the options below and notify your Sales Rep or Customer Success Specialist of all that best apply to your order and current delivery needs.

If this order is likely to ship via UPS, USPS, FedEx, or is shipping through a 3rd party carrier (your selected carrier), the below options will not apply.

All shipping methods may experience unplanned delays (covid-19, weather, local/government events). The Prestwick Group will try to account for possible delays, but cannot provide guarantees and are not responsible for late deliveries.

FREIGHT OPTIONS

Your solutions are shipped with care via a select group of third-party providers. Depending upon the size of your order and the capabilities of your receiving location, different delivery options may be necessary.

Volume shipments are typically a contactless delivery, wherein you are responsible for removing your products from the truck. LTL (less than truckload) shipments are typically offloaded by the semi or box truck driver.

SCHEDULING DELIVERY

Our third-party carriers will call to confirm their estimated delivery window. If you require a specific date and time for delivery, please notify your Sales Rep or Customer Success Specialist. <u>If a delivery appointment or phone notification is NOT needed, please specify receiving hours.</u>

Call Ahead - Already Included
Delivery Appointment - \$50

SHIPPING OPTIONS & PRICING

UNLOADING YOUR PRODUCT

If you have a formal loading dock, a pallet jack or forklift will be needed for your order.

If you do not have a formal loading dock or forklift for available use, a lift gate will be required for your delivery. The Liftgate option includes the order being taken off the truck and placed on the ground at the delivery point by using a motorized platform attached to the truck or trailer.

Driver assistance includes a liftgate, offloading service and moving the product to a receiving area (restrictions may apply).

Liftgate - \$100
Driver Assistance - \$190

Additional services such as Inside Delivery, Unpackaging, Placement, Installment, and Debris Removal are also available for an additional premium. Please speak with your Sales Rep for more details.

LIMITED ACCESS & SPECIAL SITES

Shipments are routinely delivered on a 53' long trailer. Urban areas, residential neighborhoods, or schools typically require transfer to a smaller delivery truck to get your order to you.

Limited Access sites can also include:

- Construction sites
- Government / Military sites
- Gated Communities

Limited Access Delivery - \$60

Any additional shipping options required will be added to your order with the additional costs listed. You will not receive another copy of your order confirmation unless otherwise requested. Failure to communicate shipping requirements may result in additional charges at your expense after delivery. Please feel free to reach out to your Sales Rep or Customer Success Specialist for clarity on shipping terms or to best determine your location's needs.

LEGAL DISCLAIMER

Over the past 20 years we have worked very hard to be at the forefront of the industry with innovative product designs and offerings. It's unfortunate and disheartening that other recycled plastic manufacturers have blatantly copied our designs forcing us to take a more proactive legal approach to protect our intellectual property.

By engaging in a design process with us, you agree to:

- You will not copy, reproduce, distribute or transmit, or make any derivative work of, our renderings, product
 designs and descriptions, images, approval drawings or artwork, by any electronic or non-electronic method,
 apart from our prior written consent.
- You will not provide another manufacturer, vendor or supplier with any of our renderings, product designs
 and descriptions, images, approval drawings or artwork in any manner for any purpose, including to seek
 competitive pricing.
- You will not use any of our renderings, product designs and descriptions, images, approval drawings or artwork for RFQ's, RFP's or other publicly solicited bids.

We reserve the right to invoke legal and technological measures to protect and penalize copyright infringement.

Copyright infringements are not victimless crimes as many people think; the true victims are innovative companies, product designers, product engineers, creators, inventors and artists. Without these companies and individuals there would never be anything new.

Thank you for your understanding and cooperation in this matter!

PLASTIC MAINTENANCE

While our signature recycled plastic material is virtually maintenance-free, there will inevitably be times you'll want to tidy it up.

GENERAL CLEANING

For general cleaning, lightly scrub the boards lightly with a plastic bristled brush and any of the following products.

- Grease Lightning
- CLR
- Simple Green
- Crust Buster Lime and Scale Remover

WHITE PLASTIC CLEANING

Mr. Clean Magic Eraser works well for cleaning white material.

FINE CLEANING

For fine surface marks, scrub the boards with a mixture of water and TSP (Trisodium Phosphate) which can be found at Home Depot.

TOUGH CLEANING

For tougher stains including rust spots, scrub the boards with Iron Out which can be found at Home Depot.

POWER WASHING

Power Wash boards at a minimum of 12" away with 1500 PSI.

Good Morning Gwynne,

I hope the summer season has been treating you well!

I wanted to circle back to see if there's been any movement with the PO for this order? I know we are getting into the fall months, so I thought I would check in to see how things were looking. Keep in mind that this furniture is all-weather and can stay outside year round.

Please let me know if there's anything I can help you with. Thank you!

Best,

Emily

RE: Furniture needed!

Hello Emily,

We've hit quite a delay, but we are still interested in the furniture! My General Manager wanted to wait until Fall before we order.

Thank you for checking in, and hopefully we'll be ordering it in the near future.

Sincerely,

Gwynne

Furniture!

Hi Emily,

Sorry it's been so long, but I think we are ready to buy some furniture. I will only be able to order part of what I had previously wanted now, but I will put the remainder in my budget so that I can order the rest in the future. Here is what I'm looking for:

4 x Laguna 48" Dining Table 16 x Maywood Side Chair 8 x Summit Adirondack Chair 18 x Delray Chaise Lounge

I basically went through the old quote and cut numbers, plus cut a few items out. Would you be able to give me a new quote, please?

Thanks, Gwynne

Hi Gwynne,

Please see the attached quote with shipping added. We have your tax exempt form on file as well. I added a liftgate service for delivery, but if that is not needed I can remove it.

Please review the quote and let me know if you would like to proceed or if you need any changes. If there's a certain week you would like this delivered, please let me know. Lead times are 4-6 weeks from the time we receive down payment. Thank you Gwynne!
