Statement from the Chairman of the IVGID Board of Trustees, Tim Callicrate, regarding COVID-19 pandemic

“Greetings from the Board of Trustees to our fellow residents of Incline Village and Crystal Bay.

First and foremost, **the health and safety of our community is of paramount concern.** As we have continued to monitor the spread of the COVID-19 virus, it has become quite evident that in order to protect the citizens of our district, proactive rather than reactive measures are necessary.

Working with Interim General Manager Indra Winquest, we have been and continue to be in constant communication with our state government, Washoe County health officials, regional partners, and community leaders to implement measures to prevent and protect our residents from COVID-19 transmission. The situation is constantly evolving, and we are focused on this 24/7.

We understand this is a very strenuous time for everyone. Many in our community have been tremendously impacted financially and logistically. We also understand that not having access to IVGID programs and facilities has created hardships and inconveniences in our daily routines. We are right there with you! Please realize that these are extraordinary circumstances, which remain fluid and ever changing. **The safety and security of our residents along with our district staff is of top importance.**

We hope everyone remains healthy and safe during this pandemic and we’re working to do everything we can to return things to normal as soon as possible. Let’s work together as best we can to help one another through this difficult time and realize that **we are all in this together!**

Thanks for your calm, patience and understanding.”

Tim Callicrate
Chairman of the Board of Trustees
Incline Village General Improvement District
