* * * Happy Holidays! * * *
from all the staff at Ivgid Public Works
REMEMBER TO WINTERIZE

Every winter homeowners face the damage and expense of frozen water pipes. Please remember to winterize your property BEFORE the cold weather sets in.

- When leaving town, shut off water at your customer shut-off valve (CSV), unless you have hydronic heat or other unusual conditions. Make sure your CSV is easy to access. Call (775) 832-1203 if you need water turned off at the meter. Do not turn off the IVGID water meter; there is a fine for tampering.
- Detach hoses and sprinklers from hose bibs.
- Close vents and other openings that allow cold air to reach plumbing under the house.
- Shut off, drain and remove backflow devices on irrigation systems. Store backflow devices inside to prevent damage.
- Post written directions for water shutoff in home for emergency situations. Post emergency contact information for property management or homeowner association personnel.

IVGID responds 24 hours a day, 7 days a week for water emergencies by calling (775) 832-1203. Also, be sure we can reach you by keeping your contact information current. You can update info in Online Account Access, submit with your bill, email: pw@ivgid.org, or fax to (775) 832-1260.

For more information visit the winterization page of our website:
