2016-17 IVGID WILDLIFE RESISTANT (BEAR SHED) GARBAGE CAN ENCLOSURE INCENTIVE PROGRAM

$300 FLAT RATE REBATE

Return this form to IVGID Public Works
Mail: 1220 Sweetwater Road, Incline Village NV 89451
Fax: 775-832-1260
Email: wastenot @ivgid.org

To be completed by Property Owner: **APPLICATION FORM**

		Date:	
Property Owner Name:			
Phone 1:		Phone 2:	
FAX #:		Email:	
Physical Address:			
Mailing Address:			
Resident Status (✓ One):	☐ Full-Time Year-Round	☐ Part-Time ___ # of weekends per year	☐ Short-Term Rental ___ # of weekends per year

The undersigned certifies that a permanent Garbage Can Enclosure will be installed at the above property, after application date. Applicant deals with vendor directly on installation. Applicant pays vendor for full amount of installation.

Applicant is responsible for shed placement. **Any sheds placed within the county right of-way without a permit will not be eligible for a rebate**. Increased trash service fees, due to shed location greater then 20 feet from edge of road pavement, are the applicant's responsibility. **Initial that you understand the shed cannot be in the county right of way._____**

Upon installation of the container, applicant will supply IVGID with proof of payment to vendor. Upon receipt of proof of payment, IVGID will verify installation on site.

If all tasks are completed properly, IVGID will then issue the rebate to the utility customer on their utility bill. Submission of this application does not guarantee rebate will be received.

Homeowner Signature *Application Date**

To be completed by IVGID Staff:

Tasks for Rebate	
☐ 1) APPLICATION RECEIVED PRIOR TO INSTALLATION	☐ 4) SITE VERIFICATION COMPLETED
☐ 2) APPLICATION APPROVED FOR PROCESSING	☐ 5) $300 REBATE PROCESS SENT TO BILLING DEPT.
☐ 3) PROOF OF PAYMENT / INSTALLATION RECEIVED	☐ 6) REBATE COMPLETED
STAFF COMMENTS:	

The undersigned certifies that, based upon application review, the property herein is approved for a $300 rebate on the installation of a wildlife container under the IVGID Wildlife Resistant Garbage Can Enclosure Incentive Program:

IVGID Staff Reviewer Signature *Date*

* Note: Applications void if wildlife resisitant garbage can enclosure not installed within 60 days of application date. Waste Not is available to help you with box placement, please call 775-832-1284 if you would like assistance to assure your box is properly located.
$300 rebate avaiable for a limited time only.

Important Things to Consider When Installing a Bear Shed (Wildlife Resistant Garbage Can Enclosure)

For more information, contact one of the bear shed companies listed, call Waste Not at (775) 832-1284 or visit www.bearsmartinclinevillage.org.

Experts agree the bears will be in our area as long as there is an easy to obtain source of food, and garbage qualifies as a prime food source in the mind of a bear. Wooden Bear Sheds simply do not work. The bears are capable of tearing these boxes apart to get to garbage. Storage in garages is no longer recommended in the Incline/Crystal Bay area. However, this places the trash (food source) in your home. Bears have the ability to enter garages and homes for food!

The work of a smart, strong and hungry bear.

Metal bear sheds have proven to be a very effective method for containing residential trash from wildlife.
If you are considering installing a metal, permanent bear shed, here are some things to keep in mind:

▶**Size:** Choose the right size shed. All your putrescible trash (food waste and non-recyclable packaging) *must* fit in the box easily, for it to be effective. Sheds come in sizes to fit from 1 to 3 (32 gallon) cans.

▶**Location:** The container *must* be placed on private property. The ideal location generally is 12 to 20 feet from the edge of pavement (curb), with easy access for trash collection service. Sheds cannot be located over utility service easements, nor in the public right-of-way.

Right of way: In Incline/Crystal Bay, the public right-of-way varies from 3 to 30 or more feet, so, you must be certain the box is located on your own property. A revocable encroachment permit is available from Washoe County for problem locations.

Help with shed location: In Incline/Crystal Bay, Waste Not (775-832-1284), Washoe County Roads Department (775-832-4125) and Waste Management (775-831-2971) can provide assistance in the site location for your shed. Local vendors of the sheds will also assist homeowners in box placement selection.

▶**Serviceability:** Locations further than 20 feet from the edge of pavement (curb) are subject to an additional house service fee from Waste Management. Sheds must be cleared of vehicles and snow in winter. Waste Management has the right to refuse to collect from a location which is inaccessible.

Garage doors can be no match for a smart, strong and hungry bear.

Garbage Can Enclosures

(GCE's) are animal resistant, welded steel boxes that can hold from one to three cans of garbage. They are permanently installed on a pedestal on a concrete base.

CGE's allows residents to have 7 day a week / 24 hours a day wildlife resistant garbage storage located away from the home or garage. Units are serviced weekly by Waste Management.

Approximate installed costs are $700 to $1200, depending on size. Larger units also accommodate recycling storage.

There is no TRPA coverage requirement if it is a standard, pole mounted unit 18" off the ground.

If the GCE is located between 12 to 20 feet from the edge of the road (curb) - there is no extra charge for garbage pick-up, and Washoe County right of way issues are avoided. Containers must be located on private property, out of public right of way and utility easements. Location assistance is available from IVGID Waste Not.
