

## **UPCOMING WATER MAIN REPLACEMENT PROJECT & TEMPORARY SERVICE INTERRUPTION**

IVGID is preparing to start construction phase of the Incline Court Water Main Replacement Project scheduled to begin mid-May 2026. The project scope includes replacement of the existing 6-inch steel water main, private service lines, and fire hydrants from the **intersection of Incline Way and Incline Court south to Southwood Boulevard** and supplies water to businesses and homes within the area. Refer to attached exhibit.

**Schedule:** Weather pending, mobilization is expected to commence May 14<sup>th</sup> for preliminary work/BMP establishment; underground work will begin starting May 18. Trenching will begin at the north end at the intersection of Incline Court and Incline Way working towards Southwood Blvd.

Total project duration is approximately May 14 to August 7, depending on weather and subsurface conditions.

Temporary water shutoff during service cut-over to new the main will be required. To provide advance notice, door knockers will be placed 48 hours prior to service disruption. The water main will be installed within a combination of Washoe County right-of-way and existing utility easements. Please note that the project will be in close proximity to businesses and homes in the area. **Access will be restricted during the day** with full access restored each night.

Our goal is to work with property owners in the area during the construction stages of the project to keep everyone well informed of the project as work progresses. This project is critical to replace outdated infrastructure within the District that has surpassed its effective lifespan. If you have questions about the upcoming project, please contact IVGID Engineering Manager, Hudson Klein P.E. at the email address listed below. If your home or residence has scheduled work that conflicts with the project schedule early notification is greatly appreciated. Please be advised that it will be difficult to accommodate last-minute requests or conflicts once work begins.

Hudson Klein, P.E.
